Benefits of the Computer Testing Supplement

There are many benefits to using the Computer Testing Supplement for Sport Pilot, including:

- **Comprehensive review of the knowledge and skills tested on the CBT.** The supplement covers all of the topics that are tested on the CBT, including aerodynamics, aircraft systems, meteorology, navigation, and flight planning.
- **Practice questions and answers.** The supplement includes hundreds of practice questions and answers to help pilots prepare for the CBT. These questions are similar to the questions that are actually asked on the CBT, so they are a great way to test your knowledge and identify areas where you need more study.
- **Helpful tips and advice.** The supplement also includes helpful tips and advice on how to prepare for the CBT. This advice can help you to maximize your score on the exam and increase your chances of passing.

How to Access the Free US Military Manuals

In addition to the Computer Testing Supplement, there are also 500 free US Military Manuals that are available to pilots. These manuals cover a wide range of topics, including aerodynamics, aircraft systems, meteorology, navigation, and flight planning. They are a valuable resource for pilots who are studying for the CBT or who want to learn more about aviation.

To access the free US Military Manuals, visit the following website:
